

# COMMUNICATIONS SUITE

## DEPLOY AND OPTIMIZE IP-BASED COMMUNICATION SOLUTIONS USING THE COMCAST SIP VOICE NETWORK

Unlock the quality, scale, and buying power of one of the largest and most advanced voice networks in the world. Our IP communication services are trusted by some of the most prominent ILECs, CLECs, MVPDs, and OTT carriers for reliable, cost-effective delivery of their voice traffic. Improve call quality, expand your voice footprint globally, and reduce costs for communication services.

### COMCAST'S VOICE NETWORK AT A GLANCE

- Direct connections to most networks
- Serves more than 10.5 million voice subscribers
- Delivers over 30 billion minutes of voice traffic annually
- Trusted by 80+ national and international carriers
- TDM and SIP interconnectivity
- Built on a converged architecture supporting voice, data, and video
- Leverages one of the largest N x 100GB fiber-optic backbones with multiple terabits of capacity

### BUILT ON COMCAST'S ROBUST INFRASTRUCTURE

- Advanced network — With 40,000 route miles, the Comcast network is one of the largest, most advanced fiber networks in North America.
- Consistent call quality — With direct connections to a vast number of networks, you can trust our expansive fiber-optic footprint to minimize hops and deliver a first-rate calling experience.
- Personalized service — Even though our infrastructure is at scale, our one-to-one service is customized to meet the needs of your business.

### ABOUT COMCAST TECHNOLOGY SOLUTIONS

Comcast Technology Solutions provides a portfolio of media, entertainment, and technology solutions. We invent technology that solves industry challenges, reimagines what is possible, and transforms business through new innovations. Built on Comcast's know-how, proven facilities, platforms, and infrastructure, Comcast Technology Solutions offers more than 20 years of reliable real-world broadcast and digital experience. We partner with customers to redefine business strategies and deliver the future to global audiences.
